

The figure displays two heatmaps side-by-side, representing the difference in mean and standard deviation across 12 heads. The x-axis for both is labeled 'head' and ranges from 0 to 11. The y-axis for both is unlabeled but has 12 rows.

The top heatmap, titled 'diff_mean', shows values ranging from -0.0001 to 0.0001. All cells are filled with the value 0.0000.

The bottom heatmap, titled 'diff_std', shows values ranging from 0.0000 to 0.0001. All cells are filled with the value 0.0000.
